INTRODUCTION

Welcome to **TORCH LEADERSHIP ACADEMY**

Torch Leadership Academy is comprised of passionate leaders throughout all walks of life. We bring our differences to the program to create a cohesive, outcome-based, intensive immersion experience to our student leaders, supplying them with the skills and abilities to not only be great leaders, but creative change agents in their communities.

While supporting uniqueness, it is important to have a consistent representation of who we are as a brand: uniting us in mission and vision, but setting us apart in style.

Here, you'll find guidelines to follow that will help us maintain a cohesive look and feel. Use these pages as a reference, and reach out with any questions or suggestions for future editions.

LOGO

Primary Logo

This is our program's primary logo. Do not take liberties or try to recreate or typeset it. Only official logo files are to be used.

LOGO

Alternative Logo

In instances where space is limited, use the alternate logo mark.

Additional Mark

In instances of extreme space limitations, or where this unique mark is applicable (ex: favicons, merchandise), use the smallest logo mark.

LOGO

Clearspace

A minimum clearspace of 1x the height of the “O” within the primary logo should be maintained on all sides, measured from the letters.

Minimum Size

To ensure optimal readability, never reproduce the logos at widths smaller than listed here. There is no maximum size limit, as long as it works in harmony with its surroundings.

Color Palette

This color palette uses strong, but subtle, warm colors to capture the enthusiasm, vibrance, empathy, and diversity of our program. These colors can be used interchangeably.

An array of complementary hues is also included, great for background areas and body copy.

Naming Language

Wherever possible, we should be referred to by our full name: **Torch Leadership Academy**.

Colloquially or in abbreviation, **TORCH** is appropriate. It is important to note that TORCH must always appear in all capitalization when written or typed.

Only where absolutely necessary, **TLA** can be used. It is not ideal, and should be avoided frequently.
